

Technology Access Centre for Aerospace & Manufacturing (TACAM)

Red River College Polytechnic
 📍 Winnipeg, MB

ABOUT TACAM

The Technology Access Centre for Aerospace and Manufacturing (TACAM) is Red River College Polytechnic's portal to its aerospace and manufacturing applied research technological assets, specialized facilities and subject matter expertise. TACAM is one of Canada's foremost technology access centres and has been serving the Manitoba region since 2012, with a mandate to support regional innovation. Industry benefits from applied research and development activities, technology evaluation and adoption, technical and business services, and training and knowledge dissemination.
