Agrinova - Milk Production (Agrinova-PL)

Alma College

Alma, QC

ABOUT Agrinova-PL

Agrinova - Milk Production, the Center for Research and Innovation in Agriculture, is a Technology Access Centre located in Alma, Quebec, providing services throughout the province to improve dairy companies' access to new technologies and assisting them with the adoption of innovative new technologies and practices. Agrinova's technology support focuses primarily on consumer concerns (milk quality); reducing greenhouse gas (GHG) emissions; organic or natural products; comfort and well-being of animals; digital adoption; and the economic efficiency of companies.
