

Center for initiation to research and support for sustainable development (CIRADD)

Cégep de la Gaspésie et des Îles

📍 Carleton-sur-Mer, QC

ABOUT CIRADD

CIRADD is a social innovation research center specialized in sustainable territorial development. Affiliated with the Cégep de la Gaspésie et des Îles, CIRADD supports businesses and organizations in their innovation projects and challenges through three services: applied research, technical assistance and information/training. CIRADD's projects focus on four main themes: land use and development, community vitality and well-being, adaptation to social and climate change, and sustainable recreation and tourism.
